revised edition 2024 are you having no luck with astral projection discover the spiritual and wholesome approach to attaining out of body states of awareness which leads to more vivid and profound experiences the approach in this book is on the practical understanding of out of body consciousness rather than on intellectual debate or speculation it aims to address frequently asked questions that have been received from hundreds of people struggling to achieve astral projection as explained in the book through practical understanding alone we get rid of the need for ineffective methods and complex practices which harbour self doubt often seen in books which promise quick results through techniques backed by little explanation when we instinctively comprehend the mechanics behind out of body experiences we adopt our own intuitive practice furthermore the book explores the difference between lucid dreaming and out of body experiences and how both these phenomena serve a significant purpose towards our spiritual progress one way to understand this is through realising that most of us are in a continuous dream like

state that often has a firm grip over our awareness while we re awake and also while we re asleep this is key in understanding how to go beyond layers of subconscious perception in order to reach higher objective states of consciousness if we wake up out of our dreams during the day then we also have more chance of becoming conscious during our dreams at night too as above so below learn about how following the path of astral projection enhances our mental emotional and physical health and overall quality of waking life the practice does not just apply to our non physical experiences during sleep gene s knowledge is based on over a decade of deep meditation hundreds of out of body experiences and several years spent being part of a gnostic group he has only one wish for you to experience conscious out of body travel with all of your senses in tact just as you are here and now reading this below are just some of the things you will learn in this guide overcoming fear of the other side how to rely on intent rather than methods several step by step methods and exercises how meditation greatly benefits astral projection analysing and understanding your failed attempts how to stay grounded and present once out of body how dreaming at night is no different than when we daydream how astral projection is a deeply spiritual practice of self realisation gene is dedicated to helping others achieve astral projection and has provided contact details and extra resources at the end of the book

this book covers the topic of astral projection and will educate you on exactly what astral projection is the history of astral travel why you should engage in it and how to do so safely inside this book you will discover the steps required to successfully and safely enter the astral plane and also learn about the many benefits of doing so despite being relatively unknown astral projection has long been practiced in many cultures around the world by learning how to engage in this powerful activity you will open yourself up to a whole new world of experiences and be able to greatly improve your own life as well as the lives of those around you it s time for you to become an amazing a person who has sufficient knowledge of the non physical world and the esoteric principles that govern our existence it is time for you to learn about astral projection if you have ever wondered what it would be like to float through the air with ease like a bird swim through the ocean with the grace of a dolphin or travel to distant lands and meet new people without the hassle of leaving your own home astral projection is the key learn how to relax take a breath and bring the world to your fingertips with minimal effort the key to understanding astral travel and how to consciously control what you have been doing subconsciously for years is finally presented in this book here is a preview of what you ll learn understanding the finer aspects of astral projection initial steps in performing astral projection astral projection the next step after deep relaxation is achieved the hypnotic state in astral projection separating the astral self from the physical body exploration of the astral plane much much more download your copy today
